About the Service
About the Organisation
Our mission is to transform the lives of disabled children by providing the equipment, support and life skills they need, when they need them – giving them the chance to develop their full potential.

We want all disabled children’s lives to be full of fun, friendship and freedom. For us, the wheelchair is just the start - we also run clubs, camps, wheelchair skills training and work placements to help develop confidence and independence.

Whether you’re a disabled young person, a parent or carer, here’s where you’ll find out about our services and how we can help you.

Additional and Special Educational Needs

How do you aim to meet the unique needs of the child?

Our vision for the future is that all disabled children’s lives are full of fun, friendship and hope for an independent future. Just like any other kid’s.

How do you promote positive relationships and ensure good, ongoing communication with families?

We have a parents network to include the parents in their child moving towards independent living. We run regional steering groups run by the young people which feed into a national Kidz Board who campaign and advocate on behalf of their peers.
